

PMA's Organizational Safety Institute Presents...

Leading Safety: Principles and Practices Series

This series is designed for any organizational leader with safety responsibilities or with a vision for greater organizational impact from the efforts being made in this area. Like many organizational functions, over time, *tasks can overtake purpose* and there can be a diminishing impact on our results as leaders. So this series is designed to examine both the practices of safety leaders and the principles that are guiding many organizations today in this vital area.

After beginning the series with a learning event for those who describe themselves as *newer to safety*, we will address compliance, management practices and organizational safety leadership principles to provide a well-rounded view of the disciplines of top safety leaders today. As a result, you will have the opportunity to reevaluate your organizational approach to safety and identify new opportunities to lead an organizational safety effort.

Interactive Sessions in this Series Include

New to Safety: A Road Map for Developing as an Effective Organizational Safety Leader

April 13, 2017 - 10:30AM – 11:30AM (EST)

The Top Ten OSHA Violations in 2016 & Organizational Compliance Strategies

April 25, 2017 - 10:30AM – 11:30AM (EST)

New from OSHA: *Recommended Practices for Safety and Health Programs*

May 10, 2017 – 2:00 – 3:00 PM (EST)

Organizational Safety Leadership: Moving Beyond Safety Programs

May 24, 2017 – 2:00 – 3:00 PM (EST)

At the conclusion of this series, you will have a clear understanding of the role of safety leaders and the methods that can be taken to develop a well-led, organizational approach to safety and health in today's workplaces.

PMA Extras

Expect an open Q & A and a great resource exchange as part of this series. PMA session leaders are also available for post-session discussions on matters of importance to you.

Big Picture Questions Answered

Some overarching questions that will be answered in this series include:

- *What* does it mean to “lead safety”?
- *Who* leads safety?
- *How* does an individual (or an organization) lead safety?
- *Where* do I find great resources to help me lead?
- What are organizations doing that are experiencing success in this area?

Registration for These Events is Simple

Select the link embedded in each session title or visit <http://webservice.pmagroup.com> to register. For additional information or questions, contact Ken Nogan at: Ken_Nogan@pmagroup.com or 412-841-1541.

Forwarding this schedule to others can also enable them to attend an event.
