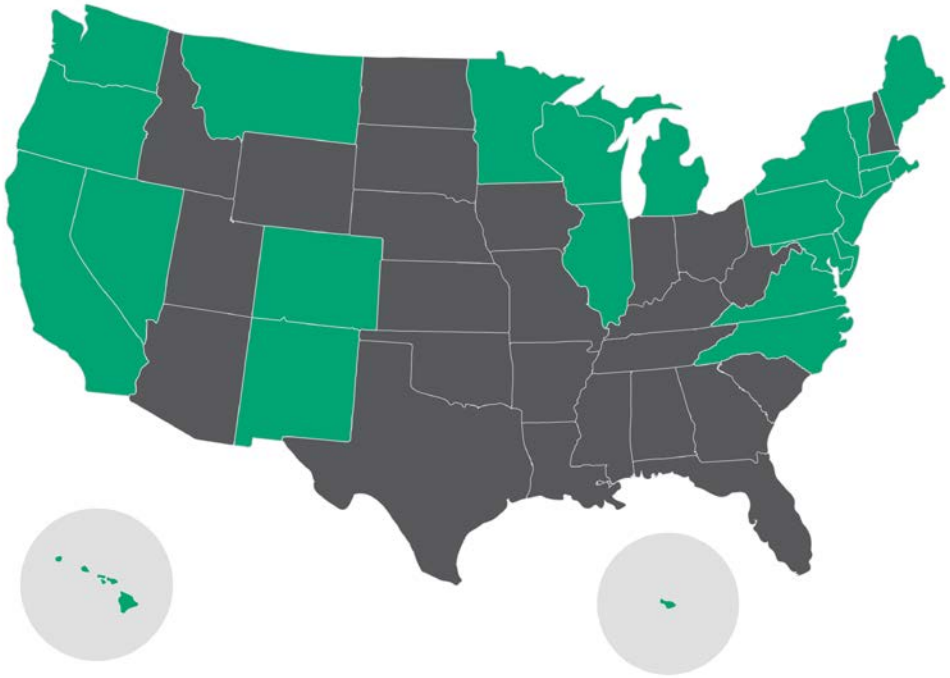
UNITED STATES CLIMATE ALLIANCE

U.S. Climate Alliance

Bipartisan coalition of 25 governors cooperating to tackle climate challenge.



Alliance States commit to:

1. Reduce GHGs by at least 26-28 percent below 2005 levels by 2025;
2. Track and report progress; and
3. Accelerate implementation of existing and new policies.

The U.S. Climate Alliance currently represents

55%

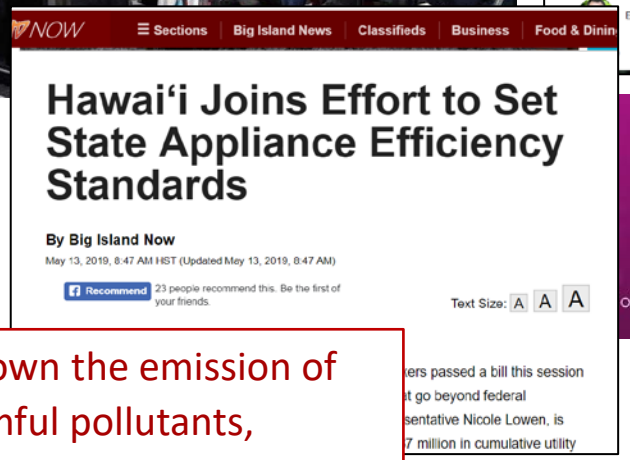
OF THE U.S. POPULATION

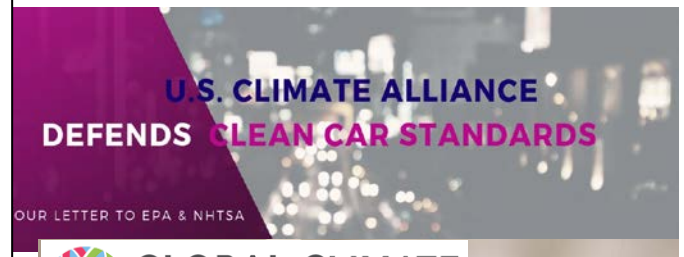
and

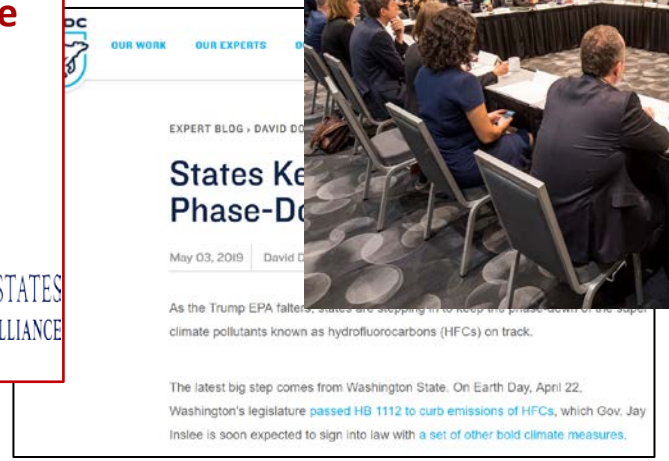
60%

OF U.S. GDP

- Speak with a Unified Voice
- Multi-State Strategies
- Inspire Action at Home and Abroad
- Support Implementation of State Climate Change Policy Priorities







To drive down the emission of these harmful pollutants, **Canada and Mexico accept the SLCP Challenge** issued by the U.S. Climate Alliance, and we each agree to develop and implement ambitious SLCP strategies.

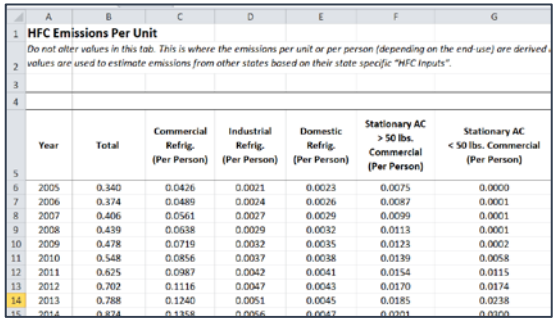
Working Groups



HFC Emissions Per Unit

Do not alter values in this tab. This is where the emissions per unit or per person (depending on the end-use) are derived. values are used to estimate emissions from other states based on their state specific "HFC Inputs".

Year	Total	Commercial Refrig. (Per Person)	Industrial Refrig. (Per Person)	Domestic Refrig. (Per Person)	Stationary AC > 50 lbs. Commercial (Per Person)	Stationary AC < 50 lbs. Commercial (Per Person)
2005	0.340	0.0426	0.0021	0.0023	0.0075	0.0000
2006	0.374	0.0489	0.0024	0.0026	0.0087	0.0001
2007	0.406	0.0561	0.0027	0.0029	0.0099	0.0001
2008	0.439	0.0638	0.0029	0.0032	0.0113	0.0001
2009	0.478	0.0719	0.0032	0.0035	0.0123	0.0002
2010	0.548	0.0856	0.0037	0.0038	0.0139	0.0058
2011	0.625	0.0987	0.0042	0.0041	0.0154	0.0115
2012	0.702	0.1116	0.0047	0.0043	0.0170	0.0174

Climate Change Planning Best Practices

- ✓ Recommendations are specific, provide clear and concise direction with measurable outcomes.
- ✓ Include implementation timing (near-, -medium, long-term).
- ✓ Identify the responsible party for implementation.
- ✓ Commitment to a regular progress report (annual, biannual, every 3 years).
- ✓ Commitment to re-evaluate recommendations and adjust as new information and science emerges.
- ✓ Assessment of economic costs and benefits (REMI, IMPLAN)
- ✓ Integrate climate change planning into existing planning and policy requirements/plans
  (Energy, Conservation and Development, Integrated Resource, Statewide Transportation, Economic Development plans)

Thank You!
