CONTRACTS FOR SERVICE: PERSONAL SERVICE; NON-PERSONAL SERVICE AND PRIVITIZATION

New Definitions passed in 2016 Act 78 (H.530):

- **“Contract for services”** means an agreement or combination or series of agreements by which an entity or individual agrees with an agency to provide services as a contractor, rather than as an employee (3 V.S.A. § 341(4));

- **“Personal Service Contract”** a contract for services that is categorized as personal services in accordance with procedures developed by the Secretary of Administration (Bulletin 3.5) and is consistent with subdivisions 342(1), (2), and (3) of this title ((3 V.S.A. § 341(4));

- **“Privatization contract”** means a contract for services valued at $25,000.00 or more per year, which is the same or substantially similar to and in lieu of services previously provided, in whole or in part, by permanent, classified State employees, and which results in a reduction in force of at least one permanent, classified employee, or the elimination of a vacant position of an employee covered by a collective bargaining agreement (3 V.S.A. § 341(4))

New Definition in Bulletin 3.5 (did not need to be in statute – if it is a Contract for Service, but NOT a Personal Service Contract, then it is a Non-Personal Service Contract, by default):

- **“Non-Personal Service Contract”** – contracts with individuals such as (but not limited to) doctors, dentists, veterinarians, lawyers, accountants, construction contractors and subcontractors, public stenographers, or auctioneers who are in an independent trade, business, or profession in which they offer their services to the general public are retained under non-personal services contracts and generally have the characteristics of Independent Contractors.

ALL PERSONAL SERVICE, NON-PERSONAL SERVICE AND PRIVITIZATION CONTRACTS ARE CONTRACTS FOR SERVICE.
CONTRACT FOR SERVICE DETERMINATION: PERSONAL, NON-PERSONAL OR PRIVATIZATION?

Contract for Service

Non-Personal Service Contract
(passes IRS independent contractor determination)

Personal Service Contract
(fails IRS independent contractor determination)

Privatization Contract?

VTHR Payroll (PR Taxes, W/C and UI)

Must follow process in V.S.A. § 343

NO

YES
WHEN MUST WE PAY CONTRACTORS THROUGH PAYROLL?

The IRS determination is based on:

- a. The Agency will supervise the daily activities or methods and means by which the contractor provides services;
- b. The services provided are the same or substantially similar as those provided by classified state employees within the Agency; or
- c. The contractor does not customarily engage in an independently established trade, occupation, profession or business.

If a Contract for Service meets **ANY** one of these criteria, it is presumptively determined to be a **Personal Services Contract**. Continue with IRS test – see Publication 15A. IRS doesn’t care if you characterize as “contractual” rather than as “employment”.

When IRS determination deems the relationship as “employment” or “employee like” – the IRS requires the “employer” (State of VT) to pay employer FICA, Workers’ Compensation and Unemployment Insurance coverage, and deduct employee FICA (SS and Medicare) from the payments to the contractor;

Working with AGO, AAG, in-house counsel or DHR general counsel may help.
Privatization contracts may be either Personal Service or Non-Personal Service; what matters is whether a contract for services valued at $25,000 or more per year that satisfies the criteria below:

(i) provides services which are the same, or substantially similar to, and in lieu of services provided, in whole or in part, by permanent, classified state employees;

AND

(ii) results in a reduction in force of at least one permanent, classified employee, or the elimination of a vacant position of an employee covered by a collective bargaining agreement. For additional information, refer to Section V.D.2. and 3.a. of Bulletin 3.5.
WHAT COULD HAPPENS IF AN “EMPLOYEE-LIKE” CONTRACT IS NOT PAID THRU PAYROLL?

- Should the Contractor file a Workers’ Compensation or Unemployment claim, VDOL will make their own determination based on federal law;

- If VDOL determines the contract failed the IRS Independent Contractor criteria and should have been handled as an “employee-like” personal service contract, paid through payroll, and covered by State Workers’ Comp and/or Unemployment Insurance, the department will be required to pay the cost of the WC or UI claim and perhaps penalty and interest;

- Last year a claim cost a department $8,000 - contractor filed for unemployment after the contract term expired;
  - Contractor was hired to do work that was backlogged due to a vacant position; and
  - Dept. had another position actively doing the same work;
AG0 CERTIFICATION VS. IRS DETERMINATION

Isn’t the AG0 certification # VSA§ 311(a)(10) (formerly called the “ABC” test) the same as the IRS Determination (also referred to as an ABC test)?

- No – although similar, they are different;
- IRS determines whether the contractor is an “independent contractor” or in an “employee-like relationship” with SOV for federal payroll tax and labor law requirements;
  - If deemed “employee-like” the contractor must be paid according to IRS tax rules and USDOL insurance rules (FICA, W/C and UI – but no other benefits);
- AG0 certification looks at whether the contract is in conflict with the “intent” of the bargaining units agreements:
  - Although the first three items considered are close to the IRS 3-point determination, the AG0 certification goes on to allow for 9 exclusions;
  - These 9 exclusions have no impact on the IRS determination.
SHORT-FORM CONTRACT PACKAGE
(INCLUDING SHORT-FORM ATTACHMENT C)

- Only for limited purchases of service not exceeding 12 months and $24,999.99;
  - Except: life safety, transport of persons, hazardous materials, construction, data usage or sharing, access to confidential information, services of licensed professionals, a Zero Dollar Contract, and/or a Financial Transaction Contract;

- Must be used together as a package (Short-Form Contract and “Mini” C);

- Why? FY 2014 and FY 2015 combined:
  - Contracts below $25k = 2% Dollars but 56% of # contracts
  - Administratively burdensome for everyone:
    - Appointing Authority approval
    - No AGO certification required
    - Everyone can spend more time on bigger value contracts
    - Acceptable business risk
**ALTERNATIVES TO CONTRACTS FOR SERVICE**

- **MOUs or MOAs** – may only be used between State agencies and units of the Executive, Legislative and Judicial branches of Vermont State government, as required by federal agencies, or with municipalities (for example: towns, cities, school districts, fire districts, county units, etc.), or political sub-divisions (such as regional planning commissions) of the State.

- **Grants:**
  - Used to support or stimulate an activity that benefits an individual (or group) rather than the Agency itself (or wards of the State) and there will be no substantial direct state oversight of the funded activity, other than providing guidance upon request, accumulating information on progress/results achieved, and periodic financial, programmatic and performance monitoring of the program or activity; **AND**
  
  - When the grant contains Federal funds, it meets the definition of a subrecipient relationship as found in the Federal Uniform Guidance [2 CFR Chapter I, Chapter II, Part 200 - Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards]; **OR**
  
  - Appropriated funds are characterized in the law or are designated in the grant agreement as “grants,” or designated by a grantor/funding organization as “grants.”

- **Capital Leases** – Capital Leases meet one of 4 special criteria – they are accounted for as a form of State Debt – you must have special permission from AoA and Treasurer’s office to enter into a capital lease.
COMPETITIVE BIDDING AND THRESHOLDS

- Competitive process of procurement is King! State and Federal preference
  - EO #3-20 “The State of Vermont recognizes the important contribution and vital impact that small businesses have on the state’s economy. In this regard, the state prescribes to a free and open bidding process that affords all businesses equal access and opportunity to compete for state contracts for goods and services. The state also recognizes the existence of businesses owned by minorities and women and directs all state agencies and departments to make a good faith effort to encourage these firms to compete for state contracts.”

- Types of Competitive Bidding Process
  - The time between the initial public notice on the EBB (and other methods of solicitation) and the opening of bids must be at least five business days.
  - Standard Bid – value is greater than $100,000 and process is publically advertised
  - Simplified Bid – value is less than $100,000 and a minimum of 3 quotes are solicited
  - Statewide Contracts – open for use by all Agencies
  - Retainer Contracts – pre-qualified contractors for a specific type of service such as IT web or marketing (updated every 2 years)
  - BDAs – authority for departments to purchase products directly under $3,500 (not covered under an existing contract). Restrictions include:
    - Services
    - IT [http://bgs.vermont.gov/purchasing/forms](http://bgs.vermont.gov/purchasing/forms)
    - Print [http://bgs.vermont.gov/purchasing/print](http://bgs.vermont.gov/purchasing/print)

- P-Card – The Purchasing Card is authorized for purchasing and paying for noncontract transactions with a total value of $3,500 or less per transaction. The Purchasing Card is authorized as a form of payment on contracts that have been identified and approved by Purchasing. Program requirements are available on-line at [http://bgs.vermont.gov/purchasing/pcard](http://bgs.vermont.gov/purchasing/pcard).
Request for Information (RFI) - Generally used to obtain information, such as capabilities, practices, systems, licenses, etc. to address a particular need to help develop an effective RFP.

Request for Comment (RFC) – A process whereby the State issues a future/proposed RFP in order to solicit input about all or a portion of the RFP structure, language, methodology, etc.

Request for Proposal (RFP) - Usually used for recurring requirements or very complex purchases or agreements.

Request for Quote (RFQ) – Generally used for a one-time bid and buy requirement.
RF(x)s are posted to the Purchasing & Contracting web-site, with notices posted to what we consider the EBB (Electronic Bulletin Board).

Example of Key elements to an RFP:

- Agency Objectives and Background
- Scope of Services – formation and foundation of an effective contract starts with the drafting of the solicitation.
- Detailed Requirements – Identify minimum requirements that the agency deems essential to the program.
- Performance Standards
- Method of Award and Evaluation Criteria – minimum qualifications?
- Single Point of Contact
- Pre Bid Meeting? If yes, optional or mandatory?
- RFP Timeline/Calendar
- Question / Response Deadline
- Due date and time for submission of proposals
- Minimum insurance requirements
Cooperative Initiatives: BGS has specific statutory authority to enter into and participate in cooperative procurements and contracts as well as piggybacking off existing contracts.

Whenever feasible, Vermont participates in various cooperative purchasing opportunities.

We actively seek opportunities to leverage our spend and resources.

Vermont benefits substantially in being a participant in multi-state contract bidding. Lower pricing derived from much greater combined quantities is the prime motivation. Another advantage would be the greater influence over vendors that will meet special requirements.
The SOA may waive any non-statutory requirement of Bulletin 3.5;

No Waivers Allowed for State or Federal statutes,

Common Waiver Requests (Bidding Process):
- Sole Source Request (justification to do a non-competitive award);
- Duration (justification to exceed 4-year max duration when in the best interest of the State);
- Threshold Approvals (example: BGS $500k for commodities);
- Insurance Requirements (may be reduced by Manager of Risk Management or SOA);

Agencies may develop a written **Contracting Waiver Plan (Plan)** to propose acceptable alternatives to non-statutory requirements of 3.5. The Plan provides a process to request modifications for certain classes of contracts or requirements that cannot reasonably be accommodated within the policies of Bulletin 3.5, or which will allow for more efficient operations without an undue increase in risk to the State. The Plan must be submitted to the SOA for approval; the SOA may approve or deny the Plan, in whole or in part. Plans must be renewed each time 3.5 is revised.
DRAFTING THE CONTRACT

- Standard State Contract Forms (Templates and Attachments); start with the basics [http://bgs.vermont.gov/purchasing/forms](http://bgs.vermont.gov/purchasing/forms)
- Standard State Contract Form
- Attachment A – Scope of Work (the formation and foundation of an effective contract starts with the drafting of the solicitation)
- Attachment B – Payment Provisions
- Attachment D – Approved Modifications to Attachment C, modifications to a Contractor document or other required Terms and Conditions
- Additional Attachments as necessary
DRAFTING THE CONTRACT (CONTINUED)

A contract shall not:

a. require the State to indemnify a Contractor;
b. require the State to submit to binding arbitration or otherwise waive the State’s right to a jury trial;
c. establish jurisdiction in any venue other than the Superior Court of the State of Vermont, Civil Division, Washington Unit;
d. waive the certifications regarding tax status, child support, use of State funds, or equal opportunity clauses, as are required by State law;
e. restrict the ability of the contractor to hire State employees without the prior written authorization of the Department of Human Resources (DHR);
f. designate a governing law other than the laws of the State of Vermont;
g. constitute an implied or deemed waiver of the immunities, defenses, rights or actions arising out of the State’s sovereign status or under the Eleventh Amendment to the United States Constitution;
h. limit the time within which a legal action may be brought;
i. include a provision for automatic renewal (“evergreen” clause); or
j. include a copy of the RFP or RFP response.
3 V.S.A.§ 2313 requires State contracts to include performance measures which enable the contracting Agency to hold the contractor/grantee accountable and assess the performance of their services and deliverables under the terms of the Scope of Work.

Contracts should include provisions, which link specific performance measures to the outputs, quality, and outcomes of the services provided.

Contract payment should be expressly contingent upon State review, approval and acceptance of contract deliverables.

Contract should detail how the contractor is accountable for the work or product. These specific performance measures provide objective standards for determining if the contractor has successfully completed the contractual obligations and if the delivered services or products meet such standards.

Contract Statement Of Work (Attachment A) must specify the timeline for the deliverables, including interim steps, and measurable standards to be maintained during the contract performance period.
Attachment C, effective 7/1/16 (“New C”) has been reorganized to segregate terms specific to grants in a separate section;

New C has broken out Independence and Defense Immunity (the combined version was often at issue);

New C has reduced standard auto insurance requirement– down to $500k – except construction, or the transport of persons or hazardous materials, limits of coverage shall not be less than $1 million, combined single limit.

New C has additional sections required by the Legislature: Whistleblower Protections, False Claims Act

New C has best practice contract law additions: Force Majeure, Sovereign Immunity, Taxation on Purchases, Marketing, State Facilities, Location of State Data, and Continuity of Performance.;

ABSOLUTLEY, POSITIVELY No Changes to Attachment C are allowed; any changes and/or additional terms & conditions must be made using Attachment D;

Work with AGO, AAG, or in-house counsel on Attachment D.
INSURANCE COVERAGE AND CERTIFICATE OF INSURANCE

- Departments must keep a valid Certificate of Insurance, including workers compensation coverage, as required, on file for active contracts;
- A process must be in place to secure a new Certificate of Insurance once coverage has expired;
- Certificates of Insurance may be filed in each contract file, or all together with cross-references;
- Auto Coverage lowered to $500,000;
  - Except for life safety, transport of persons, hazardous materials, construction, data usage or sharing, and/or access to confidential information.;
  - Why? Low Claims experience and makes it easier for small vendors to comply.
WORKERS’ COMPENSATION INSURANCE

- Departments must keep a valid Certificate of Insurance, including workers compensation coverage, as required, on file for active contracts;

- State can now cover all contractors paid on payroll and the anomaly of Sole Person LLCs who have elected not to have W/C coverage (allowed in VT);

- When contracting with out-of-state vendors, their Workers’ Comp insurance carrier must be licensed to write coverage for Workers’ Compensation in Vermont. Not all carriers are licensed to cover W/C in Vermont. Attachment C language:

  - **Workers Compensation**: With respect to all operations performed, the Party shall carry workers’ compensation insurance in accordance with the laws of the State of Vermont. Vermont will accept an out-of-state employer's workers’ compensation coverage while operating in Vermont provided that the insurance carrier is licensed to write insurance in Vermont and an amendatory endorsement is added to the policy adding Vermont for coverage purposes. Otherwise, the party shall secure a Vermont workers’ compensation policy, if necessary, to comply with Vermont law.
Form AA-14 Contract Summary and Certification is used to collect required signatures

Appointing Authority must sign all contracts & is responsible overall;

SOA and AGO depends on:
- $ Threshold, Competitively Bid;
- $ Threshold, Sole Source Waiver;
- Special Contract Type;

CIO, CMO and Commissioner of DHR depends on Contract Type;

Every contract must be entered into VISION system, regardless of $.

Contract Amendments follow similar but somewhat different rules.
E-SIGNATURES

- The State currently uses a hosted e-signature system, but other systems approved by DII may be used (example: Abode only for Military);
- Very important that e-signatures are obtained in order (if applicable):
  1. Department Appointing Authority
  2. Agency Appointing Authority
  3. AGO
  4. CIO, CMO, DHR
  5. F&M Budget Analyst
  6. SOA
- Very important that contract package documents are in the required order to ensure ease of review by e-signers;
- BUT – departments wanting to adopt e-signature going forward must get approval from the Commissioner of Finance & Management to adopt use of e-signature due to constraints.
CONTRACT EXECUTION, CONTRACT FILE AND OTHER ITEMS

- Procurement process must be documented from RFP through Contract Execution and completion/payment;
  - Check-list provided for contract file – adherence will help eliminate audit findings;
- Conflict of Interest – if it looks like a duck...
- Statewide, Master, Retainer Contracts and BDA
- Subcontractors – The contractor may not subcontract the contract with SOV, in whole or in part, without prior approval by the State. Even with approval, the original contractor remains responsible and liable for the work and monitoring the subcontractor.
- Novation & Assignment – used when a contract is transferred to a new entity or the contractor is purchased by another organization. Always work with the AGO or legal counsel.
CONTRACT AMENDMENTS

- Amendments are now easier to do and get approved:
  - No 3rd Amendment approval rule;
  - Allows for Amendments (for optional years/periods to be pre-approved if explicitly detailed in original contract and no changes are made);

- All Amendments must be approved by Appointing Authority;

- No AGO or SOA approval required if:
  - “Sole Source” Amendment, and
    - Only to extend duration and increase the maximum amount as expressly contemplated under the terms of the original contract, and
    - Maximum amount of the contract remains under $100,000 (with no change to scope of work or other contract terms);

  - Contract procured as Simplified bid or RFP, and
    - Cumulative effect of the amendment and all prior amendments increases the contract price by up to 25%, and
    - Only extends duration and increases the maximum amount as expressly contemplated under the terms of the original contract (with no change to scope of work or other contract terms).
CHANGE ORDERS

- **CHANGE ORDERS ARE NOT CONSIDERED LEGALLY ENFORCEABLE**— only appointing authorities can legally obligate the State;

- To obligate the State, change orders must be periodically consolidated and turned into executed contract amendments; when an Amendment is triggered;

- It does not matter if your contract allows a “project manager” to approve change orders because statutorily only Appointing Authorities may obligate the State;

- Some industries accommodate change orders and have industry practices and case law to control how the change order process will work and be enforceable (Construction under AIA practices – court tested);

- With the exception of Construction contracts where change orders are part of industry practice, the AGO and SOA must pre-approve contracts which include a change order process;

- Recently, IT Implementation projects have begun to use change order processes—BUT change orders must periodically be consolidated and turned into executed contract amendments; when an Amendment is triggered;

- If your contract is not Construction or a major IT Implementation do not expect to be able to justify employing a change order process or get it approved.
Each department should have an assigned “public records officer” responsible for meeting Vermont Public Records Act (1 VSA § 315-320) requirements and recording the requests in the State database.

- If records officer is not a lawyer, always contact and work with AGO, AAG, or in-house counsel when a public records request is received;

As relates to Contracts:

- During RFP process, all bidder responses remain “closed” until a contract is awarded and executed, or, until the State has not awarded and has decided not to go out for re-bid.

- RFP responses from bidders should note all confidential or proprietary items in their responses and WHY. We may not agree that their reason is valid and may need to work with them. It is never allowed for a bidder to say their entire RFP response is confidential.

- After execution of a contract – all documents associated with the bid, including all vendor proposals and evaluation notes, are then considered available for review by the public.
Writing/providing a recommendation to any vendor/person for their general use, is prohibited;

The State cannot give the appearance of “endorsing” a person, product, or company;

The entire procurement process could be tainted as not “open and fair” if it appears that the State had already “recommended” or endorsed a particular vendor in writing;

Even the appearance of a pre-determined “recommendation” is strictly prohibited;

An Agency may respond to a specific inquiry about a specific vendor or project, but all responses shall be limited to factual statements.
The Guideline is designed to provide guidance to Agencies who are involved in the procurement of Information Technology Activities.

The goal of the Guide was to establish a standard framework for the procurement of information technology activities, increase awareness of the numerous issues and risks Agencies may face when conducting IT procurements and to provide assistance for effectively addressing those issues and risks.

The procurement of IT products and services requires special diligence and the application of best practices to obtain secure, best-value IT solutions for the State. IT Products and services differ in complexity and analysis from other commodity and service procurements because technology is constantly changing due to new service offerings, technical modifications and improvements, new delivery technologies and security concerns.

The Information Technology Procurement Guideline is a companion document to Bulletin 3.5 has the same authority of rule and can be found at http://bgs.vermont.gov/purchasing/forms

This document represents the complete Plan, including all common waiver(s)/modification(s) requested. Should addition modification be requested, this document shall be resubmitted, in its entirety, including the additional requested items. Prior approval of an item by the Secretary of Administration does not ensure automatic re-approval. The Plan shall remain in effect until such time as a revised Plan is submitted, the Bulletin is reissued, or upon repeal by the Secretary of Administration. A copy the Approved Plan must be maintained and available for audit purposes. Individual one-time waivers should not be included in this Plan.
