INTERAGENCY COMMITTEE ON ADMINISTRATIVE RULES (ICAR)
AGENDA

Friday, November 9, 2018, 2:00 p.m.
Pavilion 5th Floor Conference Room

- Welcome
- Review and approval of the minutes from the September 10, 2018 meeting (no meeting held in October)
- Note any additions or deletions from the agenda
- Public comment
- Note: The following Emergency Rule was granted on 10/25/18 by Deputy Secretary of Administration/Chair Ferland:
 - Rule Governing the Prescribing of Opioids for Pain by the Agency of Human Services
- Presentation of the following proposed rules:
 1. Inmate Offender Records and Access to Information, Agency of Human Services, Department of Corrections
 - a. This administrative rule identifies types of information contained in an inmate/offender record. Additionally, it identifies processes for an inmate/offender to request access to their record, and for any person to request access to information. It further identifies procedures to correct a material fact, as well as provides for an appeal process.
 2. Vermont Impaired Driver Rehabilitation Program Rule, Agency of Human Services, Department of Health
 - a. This rulemaking reorganizes and clarifies the rule implementing IDRPs as the program undergoes a modernization.
 3. Reportable and Communicable Diseases Rule, Agency of Human Services, Department of Health
 - a. The purpose of this rule is to protect the public health through the control of communicable diseases and other diseases dangerous to public health. In this rulemaking, human and animal diseases and lab findings have been added and removed based on the latest public health data and stakeholder input. Rabies post-exposure management steps have been updated. In addition, pharmacist reporting has been greatly simplified to be more practical.

4. Advance Directives for Health Care Rule, Agency of Human Services, Department of Health
 - a. This rulemaking updates Section 10 of the rule and a number of definitions to align with 18 V.S.A. Chapter 231. Additionally, this rulemaking clarifies that a DNR/COLST documents can be updated, but do not expire on their own.
 5. Newborn Screening Program Rule, Agency of Human Services, Department of Health
 - a. Vermont currently screens newborns for 31 of 35 disorders recommended by the United States Secretary of Health and Human Services as "core screening conditions." This rulemaking adds the newest identifiable and treatable conditions recommended for addition:
 - i. Spinal Muscular Atrophy (SMA-I)
 - ii. X-Linked Adrenoleukodystrophy (X-ALD)
 - iii. Pompe Disease
 - iv. Mucopolysaccharidosis Type I (MPS 1)
 6. 10 V.S.A. App. § 122. Fish Management Regulation and Creation of 10 V.S.A. App. § 141. Baitfish Rule, Vermont Fish and Wildlife Department
 - a. This rule will facilitate the proper management of fish. This amends an existing rule in three ways. First, the sections related to baitfish are pulled out of 122 and placed into their own rule. Second, the baitfish sections are modified to reduce restrictions and once again allow the harvest, movement and use of wild harvested baitfish within designated zones in the state. Third, two modifications of 122 are related to specific waterbodies. A waterbody specific regulation on a section of Lamoille River is removed to return it to general regulations. Additionally, a 2 trout bag limit is proposed on Jobs and Martins Ponds.
 7. 10 V.S.A. Appendix § 44, Furbearing Species, Vermont Fish and Wildlife Board
 - a. This rule applies sections of the existing rule to persons who trap nuisance furbearers for compensation. The rule requires that such persons visit traps within a timely manner, label their traps, use approved traps, and submit the carcasses of certain species, as well as a biological trapping survey report to the Department. In addition, such trappers are prohibited from using poison.
- Next meeting date: Monday, December 10, 2018 at 2:00 p.m.
 - Adjournment
